

Nakuja internship

Week 2 Progress

Report

Name: Derrick Kirimi

Tasks completed last week

- Solder SD card on prototype flight control PCB (#29)
- Research on the design of the reaction wheel.
- Design of the N2 reaction wheel (#24)

Tasks in this week

- Design mounting case for the reaction wheel system inside the record (#28)
- Test reaction wheel on test bench with current firmware (#25)
- Design Safety Cage for reaction wheel (#27)

- **Timeline**

Month	Week	Tasks
Jan	Week 1	Familiarising with the N1/N2 project. Soldering of SD card on prototype flight control PCB.
	Week 2	Research on design of the N2 reaction wheel. Logging of data onto the SD card.
Feb	Week 1	Design of the N2 reaction wheel (#24)
	Week 2	

	Week 3	
	Week 4
